

Iwatsu WeLink

Conference Server

Conference 24 Parties with Iwatsu WeLink

Iwatsu WeLink provides the most convenient and cost effective multiple party business conferencing solution on the market today. Available 24/7, easily accessible by voice dial (leveraging our speech recognition equipped unified communications server), 4-digit or 10-digit dial, Iwatsu WeLink is the go-to resource for conference calls with up to 24 parties.

SIP Based Conferencing On Demand or Integrated with Your Calendar Program

Iwatsu WeLink is a SIP-based conference server specifically designed for the Iwatsu Communication System. With Iwatsu WeLink, on demand conference calls may be started any time or scheduled in advance using a calendar program such as Microsoft Outlook. At the scheduled time internal callers dial a 4-digit telephone number and enter the access code to join. Outside callers simply dial a predefined number and enter the access code to join.

WeLink Features

- **Conference Calling** - Up to 24 parties in a single conference.
- **Secure and Confidential Conference Calls** - Conference rooms are password protected and may be locked after all parties have entered.
- **Schedule or On-Demand Conference Calls** - Initiate conference calls on demand, or schedule them beforehand using a calendar program such as Microsoft® Outlook or Google™ Calendar.
- **Simplified Access** - Participants simply dial in and follow the spoken prompts to join a conference.
- **Flexible Announcing** - Iwatsu WeLink can announce each participant as they join the call.
- **Conference Reports** - The conference organizer receives a report containing the date, time stamp and caller ID of each participant on the call.
- **Optional Recording** - Record conference calls manually or automatically.
- **Flexible Connections** - Participants connect to Iwatsu WeLink through multiple devices and interfaces, anywhere in the world:
 - PSTN (copper trunk, PRI, BRI, T1)
 - SIP Trunks
 - Iwatsu Phones
 - SIP Phones (hardware and software based)
 - Mobile Phones
 - Softphones
