

ErisStation® SIP Conference Phone with Two Wireless Mics

VCS752

Whether you run a small business from a home office, or collaborate in a large conference room, the VTech ErisStation SIP conference phone uses Bluetooth® and DECT 6.0 technology for frustration-free calls and meetings. The system serves as a personal workspace device, while replacing the need for a separate deskset and conference phone. Connect your cell phone, or pair a Bluetooth or DECT headset with the speakerphone for hands-free and/or private calls. The VCS752 can go beyond the office, and work in any-size conference room. The system—with one fixed built-in mic and two wireless mics with Orbitlink Wireless Technology™—can support nine or more active participants in a small conference room. Or, it can easily scale up with the accessory VCS850 SIP DECT Expansion Wireless Speakerphone to handle 27 or more active participants. Now, you can clearly hear, and spread out and speak without shouting.

VCS752 Key Features

Full-duplex speakerphone in base

Callers can speak and be heard at the same time, just as they would in a face-to-face meeting.

Flexibility

With support for up to three SIP lines/accounts, you can manage multiple calls with advanced call handling features.

Wireless expansion

Collaborating in a large conference room? Pair up to three VCS850 SIP DECT Expansion Wireless Speakerphones to increase the volume and microphone pickup for 27 or more active participants.

Intuitive design

You're in business with a user-friendly interface, large backlit display, three soft keys and navigational pad.

Bluetooth connectivity for headset and mobile devices

Bluetooth enables hands-free calls and connectivity to headsets and mobile devices. Make and receive cellular calls on the speakerphone, or pair your favorite headset to the speakerphone for a private conversation.

HD voice quality

With G.722 wideband codec support for HD audio, calls have never sounded so rich and life-like.

DECT 6.0 wireless microphones with Orbitlink Wireless Technology

Portable, wireless microphones allow everyone to collaborate beyond the conference table.

Up to 12 hours of talk time per wireless microphone

With 12 hours of talk time for each microphone, you have plenty of room to keep the meeting going on one charge.

Up to 70 hours of standby time per wireless microphone

With up to 70 hours of standby time for each microphone, there's no need to worry about losing a charge mid-meeting.

Built-in wireless microphone charging bays in base

Magnetic charging bays in the base keep the microphones together and ready for the next call.

Operable in small, medium and large rooms

With a base speakerphone, one fixed and two wireless microphones, ErisStation is a flexible solution for any size conference room.

2-year standard warranty

Enjoy the peace of mind that comes with an industry-leading, standard two-year warranty.
